

SERVING YOUR BUSINESS

RO-RO AND FERRIES

Expertise

ABP hosts a wide range of Ro-Ro and ferry services connecting freight and people to destinations across Europe, including Denmark, the Netherlands, Belgium, France and Spain.

ABP's Humber ports alone offer over 70 regular sailings per week between the UK and mainland Europe, whilst Plymouth offers daily services to Roscoff in France.

The Port of Hull is home to the only passenger services from the Humber, the overnight P&O services to Rotterdam and Zeebrugge, which welcome more than a million passengers each year.

We work flexibly and collaboratively with customers and constantly invest in our operations to offer the best services available, as well as the room customers need to grow their businesses.

ABP's Humber ports alone offer over 70 regular sailings per week between the UK and mainland Europe, whilst Plymouth offers daily services to Roscoff in France.

Facilities

Our ports offer some 29 berths currently handling or capable of handling Ro-Ro vessels. Our Ports of Hull and Immingham already handle over 11 million tonnes of Ro-Ro traffic every year 'and' there is the capacity available to handle much more.

ABP also offers Ro-Ro terminals for moving both freight and passengers to and from northern Europe as well as excellent facilities which are available to host new services in Swansea and Ipswich.

Global shipping company DFDS operates 34 services a week into the Port of Immingham and are projecting significant growth in the volumes they handle in the coming years. To meet the challenges of Ro-Ro growth projections, ABP has invested almost £3 million in expanding the land and services available to support Ro-Ro operations in the port.

ABP has the capability to invest in and construct facilities tailored to suit your business needs.

Connectivity

As the UK's largest port operator with a network of 21 ports around Britain, we offer excellent marine access, complimented by efficient road and rail links to inland destinations throughout Britain.

ABP offers you and your customers an unparalleled range of locations, routes and logistics solutions for both import and export flows.

Contact

We are ready to help deliver the solutions your business need.
